WASHOE COUNTY OFFICIAL PRESS

SATURDAY, APRIL 19, 1875.

WHAT MIGHT HAVE BEEN,

The Regents of the California State University are moving in the matter of utilization of Pacific coast woods, and the Central Pacific Railroad Company are actively cooperating. Samples will be procured by the railroad company and furnished to the Museum of Economic Botany of the University. Cross sections of each tree, with pieces of plank, bark, leaves and seeds of the same, will be procured. Professor Hessee, of the University, has been detailed especially to receive these and all other donations of wood, to test their strength and ascertain their other qualities; to record their botanical and common names and to arrange them in the museum of the University, with the description of their properties and their peculiarities as applied to general use and to the mechanic arts. And in a great many other respects every move of the University of California is a stride onward in the march of civilization. The schools of our sister State have earned for her a reputation which equals, to say the least, that gained by her mineral and agricultural inducements. A few years back, and in our perhaps too vivid imagination, we had conjured up such a pretty picture for Nevada, as is now presented to us from the other side of the Sierra. But the location of the Nevada State University at Elko dispelled our dream. Parents in Western Nevada, where is and always must be, the bulk of population find it more convenient and pheaper to send their children to California schools to, receive a thorough education, than they do to send them to our own University at Elko. If the State University had been permanently located at Reno all of this would have been overcome. The children of Western Nevada would have been retained here, and there would have been but little hardship inflicted on those parents in the Eastern part of the State who might desire their children to learn that "knowledge is power." As the case now stands the State of Nevada has a very large sized elephant on its hands in the

shape of that University at Elko.

given Senator Sargent, and one or family. two teem with fulsome adulation of that gentleman. Sargent has been in public life a great many years. It was to be expected that during his official career he would occasionally commit some errors. We believe ing. The carders at Merchant's Mill that Sargent has done many good turns for his State, but the only trouble with him has been that these acts have been done when they never conflicted with any of the extensive interests of the Central Pacific Railroad. To our way of thinking Sargent has always been very careful to first consult the interests of that corporation before undertaking to carry through any measure calculated to trict of Alabama in place of Jerome patrons will govern themselves accordingly. Su Les & Co. improve the interests of the State, and then nurse, if he so felt disposed. the creature of the State. There is just a little too much R. R. branded on Aaron A. Sargent.

More Trouble.

CHICAGO, April 9. A Washington special says that the Union Pacific Railroad Co. is likely to soon have another serious subject to consider, as there is but little doubt that the Attorney General is examining the law to ascertain whether the Government can enjoin payment of dividends by the Company to stockholders, as has been annonneed they will soon do. It is maintained that the first duty of the Union Pacific Co., after the payment of the interest on the first mortgages is to look after the second mortgage.

Portion of a human body was re covered from the ruins yesterday, supposed to be Jesse Langdon, a teamster for Pacific Gas Company, was identified by the wife of deceased. The body recovered on the evening of the fire, supposed to be Clark, foreman, is now identified as Corran, the boatman, who was with Clark at the time of the explosion, as Clark's body is not yet recovered it is supposed to have been blown into fragments. A report that gained circulation

that J. S. Cox, agent for the Pacific Mail Steamship, had resigned, is entirely unfounded, Mr. Cox says, nor does he intended to do what the new management may decide on. He declares himself unable to say, as he knows nothing personally of the trouble between the Steamship Company and Panama Railroad, but thinks it may have been caused by the former company raising the rates which would naturally drive freight overland. The Panama Railroad Company has paid dividends steadily of 20 per cent. on \$5,000,000. If they see fit to start another steamship line they can command enough capital in New York to carry out the project. The rumor that there is a deficiency in the accounts of the Hong Kong and San Francisco agencies, Mr. Cox thinks was started for effect. Later advices correct the report and substitute Panama for San Francisco showing this agency not investigated.

The Long Valley School commenced last Monday, under the charge of Mr. E. J. Root, from the State Normal School.

FINE ANIMALS .- We have in Reno at this time the finest lot of blooded horses that it has ever been our good fortune to see. Col. James McNasser, of Denver, Col., has taken great pains in collecting them, and has brought them to this coast for the San Francisco market. Among the selected there is one pair of carriage horses, dapple grays, of Samson and Messenger blood, which can travel over the road like the wind; two pair of Messengers, that are splendid steppers; those two pair of Black Hawk Morgans, for gentleman's carriage use, are beauties and can put on the style of a French dancing master. They are nobby. That pair of Messengers, that weighs 2,000 pounds, are travelers and good enough for Queen Victoria to ride behind. But when you want to see as good a 3-year-old as there is in the United States, just look at that one raised by Gen. Beaufort, hte great horseman of Kentucky. Yesterday six car loads of innocent It is from dam Herrickson, sire Hamlooking emigrants came through bletonian, and is therefore an own consin to Goldsmith Maid and Lady makes them look as if they had been Thorn, and weighs 1,300 pounds. He will be four years old on the 20th of June; and then those Glencoe horses, bright bays, weighing 2,100 pounds are the gayest we have seen here. There are thirty head of them altogether, and competent judges say they are the finest lot that ever a few days to rest the horses. He leaves here on Monday, so if any one wants to get either a good team or single horse they had better interview him at the Truckee Stables to-day.

> THE WEEKLY JOURNAL.-The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at \$4.00 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

DR. A. B. SPINNEY.

DR. A. R. SPINNEY.

Well known throughout the country as a Pathologist and Physiologist, whose success ful treatment of certain physical disabilities and functional derangements' deservedly entitled him to the familiar recognition of the Great Specialist, would respectfully inform the citizens of Virginia City, Nevada, and reinity that he can be consulted at Ne. 188 South C street, Virginia, seven doors north of the French Drug Store, at his office, thus giving invalids an opportunity of ridding themselves, through his professional agency, of such constitutional aconystices and aliments as he claims to compass and to care. Without entering into biographical details, it is sufficient to simply promungate the fact that DR SPINNEYS earliest reputation may be traced back to his imagination and conduct of the Montreal (Canada E 181) Medical Institute. The regime of the English Plantmacturical Colleges is gauged by an elevated standard. An extended experience and an assiduous study of the varied phases of disease enables him to guarantee assurance of success in the eradication of the nulliform chrome affectors, incidents. the passes of success in the eradication of the multiform chronic affections incident to both sexes, such as Nervous Debility, Ex-hausted Nitality, Youthful Excesses, Marriage Impediments, Chronic and General Afflic-tions,

TO THE LADIES.

DR. SPINNEY, while naturally impressed with the deheacy of the subject, feels no hesitancy in assuring them that, in conjunction with a competent knowledge of their various sufferings, such as Nervousness, Neuralgia, Spinal Weakness, Loss of Appente, Lasticade, Prolapsus Cheri, Retroversions or Displacement of the Wonth, Vaginal Irregularities, Leuchorrea, Dyspepsia, Indigestion, Constipation, and the many petty, irruning distractions that almost invariably have their origin in the uterine region, afford them immediate relief.

TOUNG MEN.

YOUNG MEN.

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest book ever laid at the altar of suffering humanity. DR. SPINNEY will gauntates to forfeit five hondred dollars for every case of seminal weakness or private disease of any kind or character which he undertakes and fails to core. He would, therefore, say to the unfortunate sufferer who may read this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first suge—remember you are approaching the last. If you are bordering nom the last, and are suffering some or all of its evil effects, remember that if you obstinately persist in procrastination, the time must come when the most skillful physicians can render you no assistance; when the door of hope will be closed auther you woo no speed of when the most skillful physicians can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you rehef. In no case has the Dootor failed of success. Then let not despair work itself upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave.

COME AND BE HEALED.

It matters not what your trouble may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so pieces call and eather yourself whether the Doctor understands your case. If he can cure you be will tell you so; if not, he will say so, for he will not undertake a cure unless he is confident of effecting a cure.

MIDDLE-AGED MEN.

MIDDLE-AGED MEN.

There are many of the age of thirry to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarring or burning sensation, and a weakening of the system in a manuer the patient cannot account for; on examining the nrinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color with leo of a thin and milkish line, again changing to a dark and torpid appearance. There are many men who die of this cifficulty, ignorally of the cause, which is the second stage of seminal weakness. Dr. S. will gaurantee a perfect cure in all such cases, and a healthy restoration of the genito-prinary organs.

perfect cure in all such cases, and a healthy restoration of the genito-nrinary organs.

THE THOROUGHBRED TROTTING STALLION

RIFLEMAN!

Will stand the present season at Longley's Ranch count are present season at Longley's Ranch six nites south of Runo, Nevada, season commencing April 1st and ending July 1st, 1873. Terms of service thirty-five dollurs, persable in United States gold coin, before the close of the season.

Description:

Rifleman is a beautiful bay, 15% hands high, and is the handsomest horse and the best head trotter in the State. He has as much Messenger blood in his veins as Smuggler, the champion stallion of America, that won the Stallion Race, at Beston, in 2:20. Rifleman's colts are all very stylish and large and show the truting action. I will show his colt Morgan Chief at the best State Fuir against any colt of his age west of the Bocky Mountains. I will also give a premium of \$20 to the best sucking colt from Rifleman that is shown at the State Fair next Fall.

Pedioreer

Rifleman was sired by the Thoroughbred Stallion Rifleman and he by Ium. Glencoe, dam by Rudolph, out of Butterfly by Sampter. His dum was the Thoroughbred mare Lady Davis by Red Bill by Modoc and he by American Eclipse out of Miller's Dannel by Imp. Messenger. I have good pasturage at \$i\$ per month for the accommodation of unres from a distance. I take good care of mares, but will not be responsible for accidents or escapes'should any occur. No mares delivered until all charges are paid.
